West Elm heading to the Scottsdale Quarter

Scottsdale Quarter, which already landed Arizona's first version of low-priced global fashion retailer H&M, just snagged another first in the state.

West Elm, the contemporary furniture arm of Williams-Sonoma, plans to open a store in the north Scottsdale shopping center in spring 2009.

Scottsdale Quarter is the 365,000-square-foot upscale shopping center under construction at Hayden-Greenway Loop and Scottsdale Road, across the street from the slightly smaller Kierland Commons.

West Elm, which has about 30 stores nationwide, sells contemporary furniture and accessories.
